*"There are many areas in which we can cooperate. But if I had to pick three or four of the most important, I would say one of them is definitely metal processing and manufacturing. Pharmaceuticals is another one. Automotive industry, renewable energy, machinery and equipment, to list a few more. We are also interested in automation of research and development. There are many opportunities here. We have a large-scale plan for automation of manufacturing and chemical processing."*  
— **Bandar Ibrahim al-Khorayef, Minister of Industry and Mineral Resources of the Kingdom of Saudi Arabia, Head of Delegation at INNOPROM 2025.**
